

Invest Well While Doing Good

- Many Christian investors unknowingly invest in companies that are involved in abortion, pornography, gambling and other moral issues.
- Over 20% of many common mutual funds are invested in companies involved in abortion, with even more invested in pornography and other areas.
- We work with clients to combine a moral perspective with well-established investment strategies.
- Helping you to make prudent investment decisions to reach your financial goals and also support your value system.
- We can also provide moral audits for many of the stocks or mutual funds you already own.
